FACILITIES

KNITTING

The chief ingredients in the composition of quality that gain esteem to produce jerseys, interlock, fleece, pointel rib are good infrastructure, dedication, efficiency and good breed of technological support and work force. They mark their foot print with Mayer & Cie, Pailung and Smart.

PRINTING

Oval type automatic Screen printing machine is based on rotary screen printing machines, its performance and printing process is very well. The machine adopts modular design, high-strength aluminum alloy structure, the main rotation system adopt high-precision servo drive to assure the fast and stable operation, with the features of accurate printing, reliable performance, easy operation. Suitable for water-based ink, plastisol ink, Solvent ink and other printing processes, standardly configured with flocking function. It's best for pieces and various garment printing and also flocking processing.

EMBROIDERY

We have following Tajima multi-head computerized Embroidery Machines like Multi color Applique, Chain Stitch, Chennile, Moss Stitch (loop), Boring design, Sequence with 4 color & Design making Etc.,

LAY CUTTING

Band Knife Cutting machine used to cut sharp edges for baby wears and kids wears.

STITCHING

The stitching section is equipped with a wide range of machines and labour capable of producing various garment styles with perfection.

CHECKING

Checking is to trim all extra threads and also checks for stains and holes. All garments are 100% checked before packing. In the checking section the pieces are properly checked by efficient people.

IRONING

Automated ironing lines work in tandem to ensure smooth ironing of all the products. This line also serves as a final quality checkpoint before the products are packed.

PACKING

We buy our packing materials from leading suppliers and professional providers. We use Oeko Tex certified labels and tags produced from the certified suppliers.

QUALITY

With an in-house quality assurance team that reports to senior management, very stringent procedures are in place at all stages of production. The emphasis however, is on preventing defects. In order to ensure our product quality remains at the highest possible level, we have taken strides to standardize the components used in our finished product.

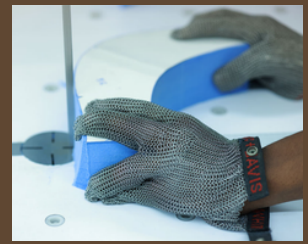

To keep in line with all the ongoing audit monitoring programs ensuring continuous improvement throughout our business processes To follow Quality Management System to help achieve the financial performance we target, upgrade with latest technology, capabilities and infrastructure

CORPORATE SOCIAL RESPONSIBILITY

RAAHA GARMENTS implements many eco-friendly methods in its production processes

We always seek to provide our customers The Best. That's why to ensure the Factory compliances, Certification and social compliance audits, we have a complete Team visiting all factories under our Umbrella any time, maintaining their social / compliances work, talkative with their Workers, making solutions to factory worker's problems, solving each individual's problems or making keen efforts for the betterment of skillful and the needy.

Our Team Perform Un-announced audits of all sort to keep an eye to factory Compliances / social Responsibility and their safety / health and environ standards as well as documents procedures are in order or not.
